

Specialists in IT Security Management

Cyber Governance, Risk and Compliance Senior Consultant

Reporting to:	Head of Professional Services
Number of direct reports:	Up to 5
Hours of work:	37.5 hours per week, Monday to Friday 9am to 5.30pm, 1 hour for lunch
Job type:	Permanent
Location:	London with flexible working

Job purpose:

This role is to lead our Cyber Governance, Risk and Compliance capability as we embark on an exciting period of growth. In this capacity you will design, shape, build and deliver all aspects of this capability. You will be working as a lead member of our Professional Services team and will have responsibility for both the growth and management of the team; delivery of client assignments; and assistance in sales opportunities to help further grow our client base.

You will bring a mix of creativity and proactivity to help us define and deliver market leading propositions. You will be an excellent coach that will help more junior members of the team develop and flourish.

Providing leadership, direction and guidance in assessing and evaluating information security risks, monitoring compliance to security standards and appropriate policies (SANS, CIS, NIST, ISO27001, Cyber Essentials etc.) for our clients.

Main accountabilities:

- Leadership, ownership and growth of our cyber governance, risk and compliance team.
- Ownership of the team skill development including support to existing staff as well as identifying and attracting new talent to the business.
- Develop and expand our Governance Risk and Compliance capability.
- Bring strong experience delivering cyber advisory roles at board level of major organisations.
- Instill a strong consultative approach across the team to ensure we build long standing client relationships.
- To help win major client assignments that will further grow our professional and managed services businesses.

- Lead the delivery or significant client engagements as well as supporting as a team member where required.

Clear understanding of ethics, and rules of engagement/scope.

- Bring passion and creativity to the development of our Cyber governance, risk and compliance capability.
- Able to work with impact at the most senior levels of our client organisations.
- Strong team work ethic to work across the different areas of Reliance acsn.
- Develop, coach, train and mentor more junior consultants
- Client relationship building to ensure longstanding sustainable business.
- Strong ethics, clear understanding of penetration-testing rules-of-engagement, scope limits etc.

Working relationships:

- Sales
- Consultants
- Advisory and presales team
- Executive Management

Personality profile:

- Proactive, "can do" attitude.
- Able to demonstrate responsibility and leadership
- Must be self-sufficient, but also able to work in a team.
- Natural coaching and teaching style
- Problem solving skills.
- Excellent communications skills, extending to clear report writing skills.
- Ethical.
- Professional.

Potential career paths:

Reliance ACSN is an ambitious company where we are building an outstanding team that will allow us to grow. This role is a pivotal role in expanding our capabilities and in turn as we progress then the opportunity for career growth and wider responsibility is very feasible.
